INGENIUM

ROUND 1 - SCRIPTED FANDOM

Each team will be allocated 5 scripts belonging to 5 randomized fandoms. Each script will contain 10 errors in it's wording, format, timestamp or line number. Delegates will need to circle the mistakes present in the scripts.

However, there's a catch! Each team will be given one "Choice Card", which they can use at the beginning to switch out one of their scripts for another script from the pool of 10 scripts, excluding the scripts the teams already have.

There will be a total of 30 minutes allotted to teams to circle all the 50 mistakes present in the scripts. Use of external devices such as phones, laptops, and tablets are strictly prohibited and may lead to disqualification from the category.
