

ADLER'S COMPLEX

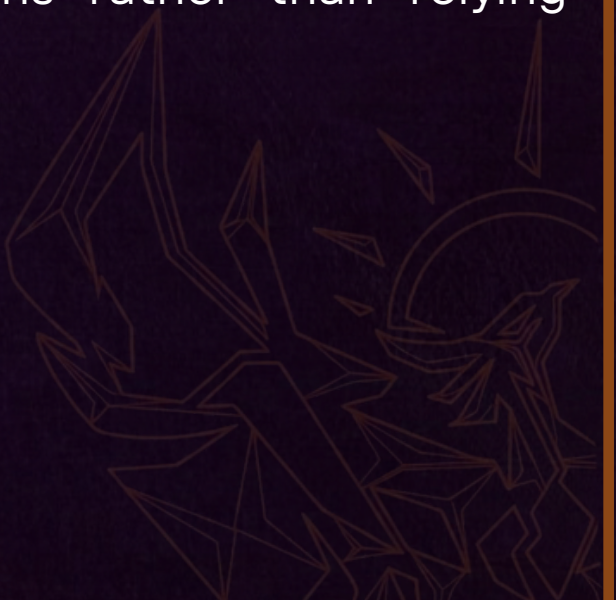

STUDY GUIDE

INGENIUM

ROUND 1 - PYSCH OUT

This round will test your **knowledge of psychology, quick thinking, and ability to apply what you know** in a fast-paced trivia format.

Delegates should be prepared to:

- Recall key **psychological concepts, theories, and terminology.**
 - Recognize common **psychological phenomena and behaviors.**
 - Apply psychological knowledge to **short scenarios and examples.**
 - Make connections between psychology and **biology, behavior, and everyday life.**
 - Work quickly and communicate effectively with your team.
 - Think carefully about questions rather than relying purely on memorization.
- 

ROUND 2 - MIND GAMES

Delegates will be tested on how well they **think on their feet, analyze evidence, apply psychological concepts, and construct persuasive arguments under pressure.**

In this round, delegates will take on the roles of opposing legal teams in a fictional criminal case involving questions of **psychology, mental state, and legal responsibility.**
